Terence – Software Developer

Gender:	Male	Degree:	Bachelor
University:	Shanghai University of Electric Power	Major:	Software Engineering

Profile

- ❖ Rich experience as a **Front End developer** with 3+ years experience building website and web applications using Vue JS, Nuxt JS and Word Press.
- ❖ I am also a **Junior Power Platform Developer** and have recently acquired my **Microsoft PL-900** and **PL-100** certifications and I am looking for a new challenge to become a **Power Platform Developer**.
- ❖ My interest with Power Platform Development comes from a natural interest in Microsoft technologies and it's capabilities to offer client solutions under an umbrella of parts that are well integrated together, instead of the using different unrelated tools to create solutions.
- ❖ Strong team player, multi-tasking, with solid ability to organize solution clearly and accurately. Experienced in working with Agile development environment;
- ❖ Extremely focused, and dedicated individual who enjoys getting the job done while operating in an efficient manner.
- ❖ Excellent communication and feedback ability with management and colleagues;
- ❖ With the recent updates/releases from Microsoft Power Platform (Image, Figma, Power Pages) I am always learning and adding to my knowledge to become an excellent contributor to the team.

Major technical skill-sets:

- ❖ Experience with Power-Apps, Canvas App, Model Driven App, Power Automate, Data-verse, Share-point list-page, AI Builder ;
- ❖ Experience with Vue js, Vue Router, Vuex
- ❖ Experience with CMS, Word-press, Divi, Elementor
- ❖ JavaScript, HTML, CSS, Divi, Bootstrap.
- ❖ Knowledge of relational database systems, such as MySQL, SQL Server;
- ❖ Agile,
- ❖ Can read, speak and type basic Chinese.

Project Experience

Project Experience

Project Overview:

Model Driven Apps

- ❖ Employee OnBoarding Process
- ❖ TimeSheet App
- ❖ IT Support Help-desk

Canvas Apps

- ❖ Computer Selection App
- ❖ Microsoft website look alike App (Design)
- ❖ Formula Calculator
- ❖ Timesheet App
- ❖ World Cities App

Technologies:

Excel Workbooks, Share-point List/Page, Power Automate, Business Process Flow, Teams, Data-verse, Components, Canvas App, Model Driven App, AI builder, Power BI.

上海郎伽国际贸易有限公司 2019.11 - 2021.12

Position: **Technical Support**

Responsibilities:

- ❖ *Create practical and intuitive user websites pages that adhere to customer needs.*
- ❖ *Translate company and customer needs into functional and appealing interactive web applications.*
- ❖ *Maintain and improve customer websites.*
- ❖ *Collaborate with clients and designers to give client the best possible web experience.*
- ❖ *Maintain portfolio of allocated websites*

Project Overview:

E-Commerce Websites

- ❖ The projects were geared toward creating e-commerce websites for our customers.
- ❖ Depending on the clients needs and budget we created Multi-Vendor and Product store E-commerce websites
- ❖ I was responsible for site building, theming, error handling and maintenance, creating consistent web applications adhering to clients requirements.

❖ **Product Store Web Applications:**

- Product listing pages
- Payment Management
- Vendor product, client, fulfilment and service management
- Product request functionality, where customer submits their information and desired product
- These applications were static and were for showcasing products and enticing customers to get in touch with vendor

❖ **E-commerce Multi-Vendor Website:**

- Clients based UI pages
 - ◆ Product search pages, Cart, After purchase, Purchase History, Search History
- Vendor based UI and functionality pages
 - ◆ Product Management Pages, Purchase Order Management Pages, Potential Clients, Shipment Progress API, After Sale Processing Pages, Payment Management
- These applications were often challenging and always require constant maintenance because of the ever changing nature of E-commerce.
- Site maintenance, adding and removing features according to clients shifting requirements, handling error and problems clients sites encountered.

- ❖ **Storage Service Website:** A platform that enabled service provider to give clients a automated system to manage storing goods in service provider warehouses.
 - Created client based UI pages
 - ◆ Storage Space Management Pages, Balance Management.
 - Service Provider Based UI
 - ◆ Customer Management, Inventory Management, Balance and Payment Confirmation Management Pages

Technologies:

CMS, MySQL, Word Press, Divi Builder, Elementor, E-Commerce resources

Morris Media (Consulting) 2022.02- 2022.04

Position: Front-end Developer

Responsibilities:

- ❖ *Create company website to showcase company services*
- ❖ *Work with customers to create film/media responsive websites*
- ❖ *Maintain and improve company website and allocated customer websites*
- ❖ *Translate company's and customer needs into functional and appealing interactive web applications.*

Project Overview:

Films/Filming Product Showcase Website

- ❖ This project wanted to create a stunning website to attract potential customers to use the company services to create client facing web applications.
- ❖ Create portfolio websites for content creators.
- ❖ I was responsible for the front-end, error handling and maintenance of clients websites.
- ❖ With the use of NUXT this work was very basic, and more time was spent on how the client wants the website to look like and where and how the user gets to interact with the clients portfolio.

Technologies:

Vue JS, Vue2,Vue Router,Vuex ,Vue-Meta, VS-Code, Nuxt JS, Bootstrap
